Muhammad Saqlain

Linux / Python / IT Support Intern | Jaranwala, Punjab, Pakistan · Open to Remote
+92304-6243971 · muhammadsaqlain4787@gmail.com · linkedin.com/in/muhammadsaqlain-tech

PROFESSIONAL SUMMARY

Computer Science undergraduate (5th semester, University of Agriculture, Faisalabad) with working knowledge of Linux fundamentals, Python scripting, SQL, and front-end development (HTML, CSS, JavaScript). Experienced in building database-backed desktop applications in C#/.NET with SQL Server; currently building a Python phishing and file-analysis toolkit. Certified by Google and Johns Hopkins University through Coursera. Seeking a remote internship in Linux administration, Python development, or IT support.

TECHNICAL SKILLS

- **Languages:** Python, SQL, C#, C++, JavaScript (ES6), HTML5, CSS3, Bash basics
- **Linux & Systems:** Ubuntu, Linux Mint — shell navigation, file permissions, process management, grep & find, pipes & redirection, package management
- **Web Development:** responsive layouts, Flexbox & Grid, DOM manipulation, form handling, mobile-first single-file site builds
- **Databases:** SQL Server, T-SQL queries, joins, schema design, CRUD operations
- **Tools & Platforms:** Git & GitHub, Visual Studio, VS Code, .NET 8 Windows Forms, SQL Server Management Studio, Windows & Linux dual-boot setup
- **Security & Cloud:** file hashing and integrity verification (SHA-256 / MD5 / SHA-1), passive web application assessment, security headers and HTTPS configuration; AWS Solutions Architect – Associate theory in progress

PROJECTS

PhishGuard — Phishing & File Analysis Toolkit

Personal Project · In progress | 2026–Present | Python, JavaScript

- Static file-intelligence toolkit: computes SHA-256, MD5 and SHA-1 hashes, identifies true file types by magic-byte signature, and surfaces threat indicators inside PDF documents.
- Reports only what it can verify — unavailable checks are shown as inconclusive rather than guessed; findings export as a PDF analyst report with a QR verification code.

FastFoodPOS — Restaurant Management System

Personal Project | 2026 | C#, .NET 8 Windows Forms, SQL Server

- Desktop point-of-sale and management application: order billing, menu and inventory tracking, and sales reporting against a SQL Server backend.
- Modeled the relational schema and wrote the data-access layer, keeping business logic separate from the Windows Forms UI.

Student Management System

Academic Project | 2026 | C#, .NET Windows Forms, SQL Server

- Database-backed system for managing student records, course enrolment and results, with input validation to protect data integrity.
- Full create, read, update, and delete workflows plus tabular reporting over a normalized relational schema.

Web Application Security Assessments

Authorized, passive, read-only | September 2026

- Enumerated application stacks and identified missing security headers and HTTPS misconfigurations across two live web applications, using non-intrusive reconnaissance only.
- Delivered prioritised remediation reports with concrete fix guidance, including a client-side role-selection control flagged for server-side verification.

Personal Finance Management System

Personal Project | 2025 | C#, .NET Windows Forms, SQL Server

- Income and expense tracker with category-wise budgeting, monthly summaries, and persistent storage of transaction history.
- Reporting views that aggregate spending by category and period to highlight budget overruns at a glance.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — University of Agriculture, Faisalabad (5th Semester · Expected 2028)

- Relevant coursework: Design & Analysis of Algorithms, Database Administration & Management, Artificial Intelligence, Web Programming, Theory of Automata, Computer Organization & Assembly Language

Intermediate, F.Sc — Govt. Post Graduate College for Boys, Jaranwala (2022–2024 · 800/1200)

Matriculation, SSC — Centre of Excellence Higher Secondary School, Jaranwala (2020–2022 · 979/1100)

CERTIFICATIONS

- **Technical Support Fundamentals** — Google on Coursera (Credential ID YG0T0H0NZ019)
- **HTML, CSS and JavaScript for Web Developers** — Johns Hopkins University on Coursera (Credential ID 5JKNPKEJN7OV)
- AWS Certified Solutions Architect – Associate — in preparation

LANGUAGES

Urdu (Native) · English (Professional Working Proficiency)
