PROFESSIONAL SUMMARY

Computer Science undergraduate (5th semester, University of Agriculture, Faisalabad) with working knowledge of Linux fundamentals, Python scripting, SQL, and front-end development (HTML, CSS, JavaScript). Experienced in building database-backed desktop applications in C#/.NET with SQL Server; currently building a Python phishing and file-analysis toolkit. Certified by Google and Johns Hopkins University through Coursera. Seeking a remote internship in Linux administration, Python development, or IT support.

TECHNICAL SKILLS

- **Languages:** Python, SQL, C#, C++, JavaScript (ES6), HTML5, CSS3, Bash basics
- **Systems:** Linux (Ubuntu / Mint) — shell navigation, file permissions, process management, grep & find, pipes & redirection, package management
- **Web & Databases:** responsive layouts, Flexbox & Grid, DOM manipulation, mobile-first single-file builds; SQL Server, T-SQL queries, joins, schema design, CRUD
- **Tools & Security:** Git & GitHub, VS Code, .NET 8 Windows Forms, Windows & Linux dual-boot; file integrity verification (SHA-256 / MD5 / SHA-1), passive web assessments; AWS Solutions Architect theory (in progress)

PROJECTS

PhishGuard — Phishing & File Analysis Toolkit (Final-Year Project · 2026–Present)

- Static file-intel toolkit: SHA-256 / MD5 / SHA-1 hashing, magic-byte sniffing, PDF threat indicators; honest reporting (unverifiable checks shown inconclusive), QR-verified PDF reports.

FastFoodPOS — Restaurant Management System (2026)

- Desktop POS in C# / .NET 8 + SQL Server: order billing, menu & inventory tracking, sales reporting over a normalized relational schema.

Student Management System (2026)

- Database-backed student records, course enrolment and results with full CRUD, input validation, and tabular reporting.

Web Application Security Assessments (passive, read-only · Sep 2026)

- Audited two live university web applications: stack enumeration, missing security headers, HTTPS misconfigurations; delivered prioritized remediation reports.

Personal Finance Management System (2025)

- Income & expense tracker in C# / .NET + SQL Server: category-wise budgeting, monthly summaries, spending reports.

EDUCATION

BS Computer Science — University of Agriculture, Faisalabad (5th Semester · Expected 2028)

- Relevant coursework: Design & Analysis of Algorithms, Database Administration & Management, Theory of Automata, Artificial Intelligence, Web Programming, Computer Organization & Assembly Language
- **Certifications:** Google Technical Support Fundamentals; Johns Hopkins HTML, CSS and JavaScript for Web Developers (Coursera)
