Muhammad Saqlain

Linux & Python / IT Support Intern | BSCS Undergraduate | Open to Remote

Faisalabad, Punjab, Pakistan | +92304-6243971 | muhammadsaqlain4787@gmail.com | linkedin.com/in/muhammadsaqlain-tech

Summary

Computer Science undergraduate (5th semester, University of Agriculture, Faisalabad) with working knowledge of Linux fundamentals, Python scripting, SQL, and front-end development (HTML, CSS, JavaScript). Experienced in building database-backed desktop applications in C#/.NET with SQL Server; currently building a Python phishing and file-analysis toolkit. Certified by Google and Johns Hopkins University through Coursera. Seeking a remote internship in Linux administration, Python development, or IT support.

Technical Skills

Languages: Python, SQL, C#, C++, JavaScript (ES6), HTML5, CSS3, Bash basics

Linux & Systems: Ubuntu, Linux Mint — shell navigation, file permissions, process management, grep & find, pipes & redirection, package management

Web Development: responsive layouts, Flexbox & Grid, DOM manipulation, form handling, mobile-first single-file site builds

Databases: SQL Server, T-SQL queries, joins, schema design, CRUD operations

Tools & Platforms: Git & GitHub, Visual Studio, VS Code, .NET 8 Windows Forms, SQL Server Management Studio, Windows & Linux dual-boot setup

Security & Cloud: file hashing and integrity verification (SHA-256 / MD5 / SHA-1), passive web application assessment, security headers and HTTPS configuration; AWS Solutions Architect – Associate theory in progress

Projects

PhishGuard — Phishing & File Analysis Toolkit 2026 – Present
Personal Project · In progress | Python, JavaScript

- Built a static file-intelligence toolkit that computes SHA-256, MD5 and SHA-1 hashes, identifies true file types by magic-byte signature rather than extension, and surfaces threat indicators inside PDF documents.
- Designed the tool to report only what it can verify: unavailable checks are shown as inconclusive rather than guessed, and findings export as a PDF analyst report with a QR verification code.

FastFoodPOS — Restaurant Management System 2026

Personal Project | C#, .NET 8 Windows Forms, SQL Server

- Developed a desktop point-of-sale and management application covering order billing, menu and inventory tracking, and sales reporting against a SQL Server backend.
- Modeled the relational schema and wrote the data-access layer, keeping business logic separate from the Windows Forms UI.

Student Management System 2026

Academic Project | C#, .NET Windows Forms, SQL Server

- Built a database-backed system for managing student records, course enrolment and results, with input validation to protect data integrity.
- Implemented full create, read, update, and delete workflows plus tabular reporting over a normalized relational schema.

Web Application Security Assessments September 2026

Authorized, passive, read-only | live web applications

- Enumerated application stacks and identified missing security headers and HTTPS misconfigurations, using non-intrusive reconnaissance only.
- Delivered prioritised remediation reports with concrete fix guidance, including a client-side role-selection control flagged for server-side verification.

Personal Finance Management System 2025

Personal Project | C#, .NET Windows Forms, SQL Server

- Created an income and expense tracker with category-wise budgeting, monthly summaries, and persistent storage of transaction history.

•~~€€€€€€~~ Added reporting views that aggregate spending by category and period to highlight budget overruns at a glance.

Education

BS Computer Science — University of Agriculture, Faisalabad 5th Semester | Expected 2028

Coursework: Design & Analysis of Algorithms, Database Administration & Management, Artificial Intelligence, Web Programming, Theory of Automata, Computer Organization & Assembly Language.

Intermediate, F.Sc — Govt. Post Graduate College for Boys, Jaranwala

2022 – 2024 | 800/1200

Matriculation, SSC — Centre of Excellence Higher Secondary School, Jaranwala

2020 – 2022 | 979/1100

Certifications

- **Technical Support Fundamentals** — Google on Coursera | Credential ID YG0T0H0NZ019
- **HTML, CSS and JavaScript for Web Developers** — Johns Hopkins University on Coursera | Credential ID 5JKNPKEJN7OV
- **AWS Certified Solutions Architect – Associate** — in preparation

Languages

Urdu (native) | English (professional working proficiency)
